

AUTOIMMUNITY AND AUTOIMMUNE DISEASES

in collaboration with
KIIT Deemed to be University , Bhubaneswar

KEY TOPICS:

- ❖ **Understanding the mechanisms of autoimmunity.**
- ❖ **The impact of autoimmune diseases on individuals and society.**
- ❖ **Current research and future directions in autoimmune disease treatment.**
- ❖ **The role of genetics and environmental factors.**
- ❖ **Advancements in targeted therapies.**

Date: 15th November , 2025

**Venue: Auditorium,
Campus 11,
KIIT Deemed to be
University, Bhubaneswar**

Chief Patron

Prof. (Dr.) Achyuta Samanta,
Founder KIIT, KISS & KIMS

Patron

Prof. V S Chauhan,
*Arturo Falaschi Emeritus
Scientist, ICGEB*

Prof. Saranjit Singh,
Vice Chancellor, KIIT

Organising Secretary

Prof. Gopal C. Kundu,
Director R&D, KIIT

Dr. B. Ravindran,
CEO, IMGENEX

Advisory Member

Dr. Satyananda Misra,
SPSF

Prof. J R Mohanty,
Registrar, KIIT

Invited Speakers:

Dr. Dipyaman Ganguly,
Ashoka University

Dr. Bidyut Das,
SCB Medical College, Cuttack

Dr. Ramnath Misra,
KIMS, Bhubaneswar

Dr. Amit Awasthi,
THSTI, Faridabad

Dr. Soumen Basak
NII, New Delhi

Dr. Ashish Mathew,
CMC, Vellore

Dr. Lisa Rajasekar,
NIMS, Hyderabad

Dr. Vineeta Shobha,
St Johns Med College, Bangalore

Dr. Aman Sharma,
PGI, Chandigarh

Significance:

- **Chronic Conditions:** Understand the impact of chronic autoimmune diseases and the potential for improved treatments and cures.
- **Immune System Insights:** Gain insights into immune system function and its relevance to broader medical applications.
- **Genetics & Environment:** Explore the interplay of genetic susceptibility and environmental elements in autoimmune diseases.
- **Targeted Therapies:** Discover the latest advancements in targeted therapies and drug development.
- **Public Health Impact:** Understand the economic and public health implications of autoimmune diseases.
- **Scientific Breakthroughs:** Explore how autoimmunity research drives cross-disciplinary advancements in medicine.
