SCIENCE FOUNDATION

Sun Pharma Science Foundation's

15th Hands-on Workshop
in collaboration with Ahmedabad University, Ahmedabad, Gujarat

"Unravelling cell signalling pathways for drug development"

Date : 15th to 18th December, 2026

Venue : School of Arts & Sciences, Central Campus,
Ahmedabad University

A Hands-on Workshop being organized at **Ahmedabad University, Ahmedabad.** Measurement of cell signalling is an important aspect of drug discovery. Increasingly, regulators want to understand the mechanism of action of a drug. Small molecules or antibodies targeting cellular signalling pathways are emerging as highly effective drugs, especially in oncology. Traditionally, cell signalling has been measured using phosphoantibodies against single proteins. However, newer techniques allow multiplexing and thus the ability to measure expression or phosphorylation of multiple proteins from a single sample. This workshop will focus on the use of such multiplexed techniques.

The workshop will provide hands on training to participants and will be conducted over 4 days with each day devoted to a specific technique. Basics of flow cytometry or RNA-seq will also be covered for the benefit early investigators.

Scientific Advisory Committee:

Prof. Virander S. Chauhan, Chairman SPSF
Prof. Vivek Tanavde, Associate Dean, Ahmedabad University
Dr. Subeer S Majumdar, Head SPSF
Mr. Satyananda Misra – Member Secretary SPSF
